Accomplishments

- ▶ Supporting NGA/TD Director by introducing Operating Model, Governance Model and automated Enterprise Architecture tool enabling automated complete capability life cycle management.
- ▶ Evaluated the security posture of the US Army iPERMS SIPR/NIPR boundary by ensuring separation of both networks and further reducing the accidental data leaks. Enhanced tracking of POAMs by implementing a tracking tool resulting in increased compliance by 80%.
- ▶ Supported IC CFO by capturing AS-IS Architecture and developed Cloud Migration Strategy for the financial application Suite.
- ▶ Developed funding models for ICITE. Authored Interagency Agreements (ISAs) Memorandum of Understanding (MOUs).
- ▶ In support of DIA developed and integrated PL-3 level Computer Network Defense / Attack (CND /A) Intelligence Analytical Tool suite, delivered systems within 18 months with savings over \$500,000.
